Tutorial Level — In-Game Text & Prompts

Gameplay Mechanics, Controls & Onboarding Prompts (Zones 1.0 – 1.11)

Zone 1.0 (Movement):	Use `WSAD` to move.
Zone 1.1 (Standstill Mechanics):	Movement consumes **Energy**. Stop moving (**Standstill**) to halt Energy depletion.
Zone 1.2 (Dash):	Press `Space/B` to perform a **Dash**.
Zone 1.3 (Save & Regeneration):	Approach the station to save your game progress and replenish **Energy**.
Zone 1.4 (Inventory):	Pick up items with `F/X`, drop with `G/RT`. Carried items produce **Encumbrance** and slow your movement.
Zone 1.5 (Gate):	Use a gear with `R/Y` to repair the **Gate**.
Zone 1.6 (Maintenance):	Select an item from your inventory and press `R/Y`. **Oil** reduces energy consumption, **Cassette** restores Energy.
Zone 1.7 (Crystal):	Use the Crystal `R/Y` for **Overcharge** (speed and damage resistance boost). After 15 seconds, a debuff phase will begin!
Zone 1.8 (Passage / Traverse):	Press `Shift/LT` at a tunnel entrance to perform a **Traverse**. Requires an unlocked tunnel network.
Zone 1.9 (Tunnel Repair):	The tunnel is damaged. Pick up a gear with `F/X` and repair the structure with `R/Y`.
Zone 1.10 (Lever):	Approach the lever and press `F/X` to activate electrical power and open the **Gate**.
Zone 1.11 (Level Objective):	Pick up the **Key** `F/X`; you can use it to unlock all exit doors.
